

# Group Profile

We set and achieve high standards  
for ourselves and our clients

Group Companies

## Group Overview

Our success is based on continuous service improvement and the strategy of aligning precisely to the clients' business and strategic objectives.

Commencing with humble beginnings in 2003, the Group has grown from strength to strength taking on ever increasing and complex projects year on year while consistently exceeding customer expectations.

Through the years, Nyamezela Group Companies has increased the array of professional service offerings within various engineering disciplines and constantly strives to surpass the SABS industry standards.

In addition to the engineering industry, Nyamezela Group Companies also identified opportunities in the business arena, resulting in a specialist business division devoted to business advisory services, assurance, financial management, corporate governance, due diligence, financial modeling and more.

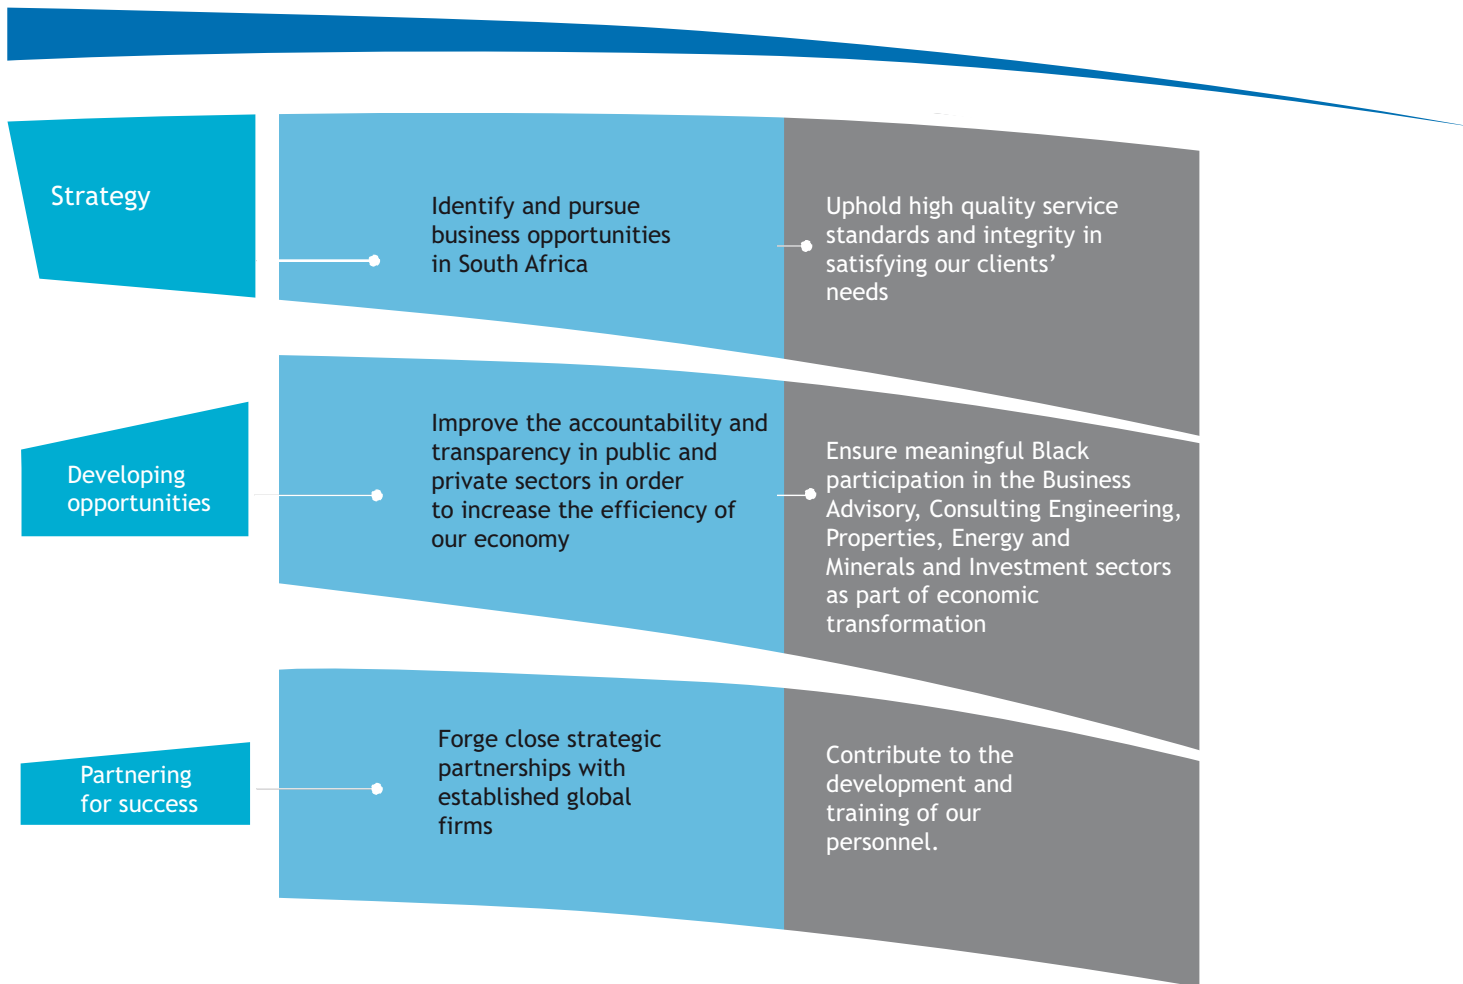

Whilst we strive to be the best that we can be to all our clients, we also have an obligation to our valued employees to provide for them a challenging, exciting and stimulating work culture which is conducive to personal growth and self fulfillment. Entrepreneurial effort is recognized and rewarded, resulting in not only achievement for the employee, but the relative positive spin-off for the client. We are proud to boast that every Nyamezela Group client is a reference, and has almost become 'family' because of the professional relationships that have been forged thus far in our successes.
