Our Commitment

Dedicated to quality, innovation and return on investment

Nyamezela Metering Solutions- NMS

A Division of Nyamezela Group Companies (NGC), NMS was established as a meter and metering service company with the main objective of providing metering hardware and services to the Water and Power sectors with main clients being Eskom, Municipalities and the private sector: that includes Commercial and Industrial, Mining, Retail and Residential Markets.

Although based in Johannesburg, NMS collaborates with a number of international experts in the field of metering as both suppliers and supporting companies such as INHEMETER and Bluestart Electrical Metering Research Institute In china. Through this collaboration, we are able to provide turnkey solutions to supply, install, commission, test, support and manage all your metering needs.

Service Offerings:

- Automated Meter Reading Solutions
- Vending Solutions
- Meter Installations
- Billing Solutions
- Meter Management

With over 15 years of experience in metering and project management, NMS guarantees its clients professional service, value for money and high return on investment (ROI).
